

2025 The 11th International Conference on Communication and Information Processing

November 12-15, 2025 | Lingshui, Hainan, China

2025 The 11th International Conference on Communication and Information Processing (ICCIP 2025) will significantly contribute to address the unprecedented research advances in the areas of communication & information processing. It will be held in Lingshui, Hainan, China during November 12-15, 2025. It's sponsored by Beijing University of Posts and Telecommunications, China; and hosted by BUPT_QMSH.

TRACK 5

Intelligent Perception and Cognitive Computing

Intelligent perception and cognitive computing are important and fundamental research topics in the field of intelligent science and technology / artificial intelligence. Intelligent perception endows machines with advanced linguistic, visual, auditory, tactile, taste, and olfactory abilities to comprehensively perceive the environment. Cognitive computing enables machines to learn, think, and make correct decisions like human brains. This special session is to bring together leading experts and researchers to share knowledge, exchange ideas, and explore the latest developments and trends in these exciting and booming topics. Prospective authors are invited to submit papers reporting original work.
